

## PERSONAL INFORMATION

**Evangelos (Vagelis) Papakonstantinou**

## PERSONAL STATEMENT

## WORK EXPERIENCE

- 2008 - today **Vrije Universiteit Brussel (VUB), Law, Science, Technology & Society Studies (LSTS)**  
<http://lsts.research.vub.be> & <https://cdsl.research.vub.be>
- 2018: Professor at the Faculty of Law & Criminology
  - 2014 - 2018: Senior Researcher
  - 2008 - 2014: Affiliated Researcher
- Business or sector** Academia - Research
- 2006 - today **MPlegal law firm**  
<http://www.mplegal.services/>
- 2006 – Attorney at Law, partner
- Business or sector** Legal services
- 2016 - today **Hellenic Data Protection Authority**  
[www.dpa.gr](http://www.dpa.gr)
- Member of the Committee of Directors (alternate member)
- Business or sector** Government
- 2000 - today **Athens Bar Association**  
[www.dsa.gr](http://www.dsa.gr)
- Attorney at Law
- Business or sector** Law

## EDUCATION AND TRAINING

- 1998 – 2001 **Dr.Jur.(summa cum laude)**
- Johann Wolfgang Goethe University Frankfurt am Main, Germany
- ‘Self-regulation and the protection of privacy’, Promoter: Prof. Spiros Simitis

1997 – 1998 **LL.M.**

University of Strathclyde, Glasgow, United Kingdom  
 ▪ ‘Information Technology Law’

1991 – 1997 **Bachelor, Law (LLB)**

University of Athens, School of Law  
 ▪ Law

**PERSONAL SKILLS**

Mother tongue(s) Greek

Other language(s)

|         | UNDERSTANDING    |                  | SPEAKING           |                   | WRITING          |
|---------|------------------|------------------|--------------------|-------------------|------------------|
|         | Listening        | Reading          | Spoken interaction | Spoken production |                  |
| English | Proficient user  | Proficient user  | Proficient user    | Proficient user   | Proficient user  |
| French  | Independent user | Independent user | Independent user   | Independent user  | Independent user |
| German  | Independent user | Independent user | Independent user   | Independent user  | Independent user |

**ADDITIONAL INFORMATION**

**Government work**

Since 2019 Member of the Greek Committee for the Notification of Online Intellectual Property Rights Infringements  
 2006-2008 and 2013-2016 Hellenic Copyright Organisation ([www.opi.gr](http://www.opi.gr)), Member of the Board of Directors (two terms)

**Regulatory work**

- 2020 Member of the law-making committee for the introduction into Greek law of Regulation (EU) 2019/1150 of the European Parliament and of the Council of 20 June 2019 on promoting fairness and transparency for business users of online intermediation services
- 2019 Member of the law-making committee for the introduction into Greek law of the EU General Data Protection Regulation (EU 2016/679) and the Police and Criminal Justice Data Protection Directive (EU 2016/680)
- 2013-2017 Council of Europe, CAHDATA, *ad hoc* committee for the Modernisation of the Convention for the protection of individuals with regard to automatic processing of personal data (Convention 108), national representative of the Greek Ministry for Justice
- 2014-2015 Member of the law-making committee for the harmonisation of national Greek law with the Data Protection Framework Decision 2008/977/JHA
- 2013-2014 Greek Presidency of the Council of the European Union (first semester of 2014), vice-chair of DAPIX Committee (Working Group on Information Exchange and Data Protection)
- 2008 - 2009 Council of the European Union, Council Framework Decision on the use of Passenger Name Record (PNR) for law enforcement purposes (MDG Committee, national representative of the Greek Ministry for Justice)
- 2005-2007 Council of the European Union, Framework Decision on the protection of personal data processed in the framework of police and judicial co-operation in criminal matters (MDG Committee, national representative of the Greek Ministry for Justice)

## Teaching experience

|               |  |
|---------------|--|
| 2018 (spring) | Adjunct Professor (teaching “Entrepreneurship”), MBA, University of the Aegean                             |
| 2003-2013     | Adjunct Professor (teaching “Information Technology Law”), University of Patras, Department of Informatics |
| 2011-2012     | Academic Assistant, International Hellenic University  |

## Membership of public/government advisory/policy group

|           |   |
|-----------|---|
| 2020      | President of the Patent Evaluation Committee, 100-year Anniversary Awards since first Hellenic Patent, Hellenic Industrial Property Organisation  |
| 2017-2018 | European Commission, DG CONNECT, Member of the “EU-China Digital Economy and Economic Aspects of Cybersecurity Expert Working Group”  |
| 2012-2017 | Council of Europe, Consultative Committee (T-PD) of Convention 108 for the protection of individuals with regard to automatic processing of personal data, national representative of the Greek Ministry for Justice  |
| 2011-2012 | Expert with the Hellenic Federation of Enterprises – SEV on intellectual property issues.   |
| 2007-2008 | Council of Europe, Consultative Committee (T-PD) of the Convention for the Protection of Individuals with regard to Automatic Processing of Personal Data (national representative of the Greek Ministry for Justice) |

## Membership of scientific committees / editorial boards

- Member of the Scientific Committee, Media & Communications Law Journal (in Greek)
- Member of the Scientific Council, Research Group on Digital Economy and Private Law, Faculty of Law, University of Thessaloniki
- Member of the Scientific Committee, Institute for Privacy Law, Data Protection and Technology (IPL), European Public Law Organisation (EPLO) (<https://www1.eplo.int/ipl>)
- Member of the Secretariat, Research Alliance for Data Governance and Cyber Security (<http://www.dgcs-research.net>)
- Member of the Scientific Committee, Journal of the Hellenic Association of Judges of Administrative Courts “Dioikitiki Diki” (in Greek)

## Research projects (within VUB-LSTS and/or VUB CDSL and/or VUB Brussels Privacy Hub)

2020 – 2023: **SEARCH & RESCUE, Emerging technologies for the Early location of Entrapped victims under Collapsed Structures and Advanced Wearables for risk assessment and First Responders Safety in SAR operations** (co-financed by the European Commission under Grant Agreement 882897). Apart from earthquakes that usually result to catastrophic structural collapses, with many people entrapped or killed (e.g. Indonesia 2018, Japan 2011, Haiti 2010, Italy 2009, Greece 1999), there are also other causes that may result into a building's collapse, such as an accidental explosion or a terrorist attack (e.g. 9/11) in public areas or critical infrastructures (airports etc.). Moreover, natural disasters like earthquakes may trigger technological disasters, such as industrial chemical release or even fires; this dynamic or “domino effect”, as it is called may pose tremendous risks to the countries and communities and hence it is a great challenge to cope with by the first responders and relevant organizations of civil protection. First responders and rescuers need specialized instrumentations, available to all times, easily accessible that meet stringent requirements in terms of detection accuracy, quick localization, and reduction of false alarms. The S&R project will design, implement and test through a series of large scale pilot scenarios a highly interoperable, modular open architecture platform for first responders' capitalising on expertise and technological infrastructure from both COncORDE and IMPRESS FP7 projects. The governance model of S&R will be designed to operate more effectively and its architectural structure will allow to easily incorporate next generation R&D and COTS solutions which will be possibly adopted in the future disaster management systems. The Model will also support a unified vision of the EU role and will provide a common framework to assess needs and integrate responses. The framework will enable supportive approach using a wider range of decisional support features and monitoring systems and will also give to first responders

an effective and unified vision of (a) the dynamic changes going on during event's lifetime and (b) the capabilities and resources currently deployed in the field.. **Total budget: 7M.**

- 2019 – 2022: **NAIADES, A holistic water ecosystem for digitisation of urban water sector** (co-financed by the European Commission under Grant Agreement 820985). NAIADES Ecosystem envisions transforming water sector through automated and smarter water resource management and environmental monitoring, achieving a high level of water services in both residential or commercial consumers, exploiting the efficient use of physical and digital components of water ecosystem. NAIADES will apply in various situations on diverse big data in terms of sources, data types, and entities represented that is collected by such water monitoring and control systems in Europe, including (i) the water consumption in both retail and corporation efficiency, (ii) the confidence of water consumers (including special groups as ageing, disabled persons and children), by measuring the water quality in residential buildings, offices and public infrastructures (mall, hospital), (iii) the safety and reliability through the detection of warning signs from equipment failures and maintenance report, and (iv) personalized persuasive feedback and recommendation services provided to the NAIADES App Users aiming to enhance public awareness on water consumption and usage savings, and promote user engagement in water conservation activities. NAIADES AI elements, aim to provide multidimensional intelligence on the water ecosystem by introducing: Situational Intelligence - by collecting real-time data from the buildings as they are in operation and analysing it in three different dimensions. **Total budget: 5M.**
- 2019 – 2022: **SPHINX, A Universal Cyber Security Toolkit for Health-Care Industry** (co-financed by the European Commission under Grant Agreement 826183). Hospitals and care centres are prime targets for cyber criminals, especially concerning data theft, denial-of-service and ransomware. This reflects the need of Healthcare Institutions for a Holistic Cyber Security vulnerability assessment toolkit, that will be able to proactively assess and mitigate cyber-security threats known or unknown, imposed by devices and services within a corporate ecosystem. SPHINX aims to introduce a Universal Cyber Security Toolkit, thus enhancing the cyber protection of Health IT Ecosystem and ensuring the patient data privacy and integrity. SPHINX toolkit will provide an automated zero-touch device and service verification toolkit that will be easily adapted or embedded on existing, medical, clinical or health available infrastructures, whereas a user/admin will be able to choose from a number of available security services through SPHINX cyber security toolkit. **Total budget: 5M.**
- 2018 – 2022: **NUTRISHIELD, Fact-based personalized nutrition for the young**, (co-financed by the European Commission under Grant agreement 818110). NUTRISHIELD aims at creating a personalised platform for the young. The platform will consist of novel methods & techniques, which analyse a wide range of biomarkers related to nutrition and health disorders. Based on findings, the platform then uses ICT, by expanding existing nutrition assistive mobile apps, in order to provide feedback and steering people towards a better nutrition. This takes into account the way each person responds to different nutrients and food types, by also analysing phenotype, genome expression, microbiome composition, health condition, mental & psychological condition, as well as financial capabilities for procuring food. **Total budget: 8,5M.**
- 2017 – 2019: **International Digital Cooperation – Enhanced Data Protection and Data Flows** (a EuropeAid project, Grant number. 2017/393197). The aim of this project is to strengthen understanding of the importance of personal data protection for international data flows and to enhance the level of data protection among key trading partners in Asia and Latin America. It will engage with local stakeholders to increase awareness of the principles and tools of the new EU data protection legal framework with the aim of fostering coherence on personal data protection approaches. **Total budget: 1,5M.**
- 2017 – 2019: **STAR, Support Training Activities on the data protection reform** (co-financed by the European Commission under Grant Agreement **769138**). STAR project will support training activities of EU DPAs and Data Protection Officers (DPOs) on the EU data protection reform, especially on the General Data Protection Regulation (GDPR). The GDPR requires both to undertake training activities (Arts 57(1) and 39(1)(b)). The development of materials in isolation increases the overall costs, it risks undermining the harmonising effect of the Regulation, and it puts great pressure on consistency mechanisms. STAR will aim to provide with necessary and efficient training materials and resources. **Total budget: 358K.**
- 2014 – 2017: **Data Protection in Humanitarian Action**. Since July 2014, the Brussels Privacy Hub and the International Committee of the Red Cross (ICRC) have been running a project exploring the relationship between data protection law and humanitarian action. The project seeks to (a) Clarify the relationship between data protection laws and humanitarian action; (b) Assist humanitarian organizations, and those that are currently adopting data protection policies and practices, with issues that arise in the scope of their work, and (c) Identify data protection concerns with use of new technologies in the humanitarian sector, and formulate appropriate guidance to address them. Among its outputs is the Handbook on Data Protection in Humanitarian Action (available at <http://brusselsprivacyhub.eu/publications/dataprotectionhandbook.html> ).
- 2017 – 2020: **FORTIKA, Cyber Security Accelerator for trusted SMEs IT Ecosystems** (co-financed by the European Commission under Grant agreement 740690). FORTIKA industry partners will roll-out to the market a new generation of cyber-security products and related services based upon the results of the proposed innovation action. The project will work towards more robust, resilient and effective cybersecurity solutions that can be effortlessly tailored to each individual enterprise's evolving needs and can also speedily adapt/respond to the changing cyber threat landscape. To this end, FORTIKA will open its middleware platform to third-party cyber security applications and services through its marketplace. **Total budget: 4,9M.**
- 2015 – 2017: **PHAEDRA II, Improving Practical and Helpful cooperAtion betweEn Data Protection Authorities II** (European Union's Fundamental Rights and Citizenship Programme, Grant agreement: JUST/2013/FRAC/AG/6068). The PHAEDRA II project is focused on practical aspects of European DPA co-operation: Practical challenges to co-operation between DPAs which might result from both non-legal (technical, cultural, economic or other) and legal barriers to co-operation. **Total budget: 396K.**
- 2012 – 2013: **Study on EU privacy seals** (European Commission, DG Joint Research Centre JRC). The study shall analyse whether it is opportune and feasible to launch a European privacy certification scheme. The scope and rules of such a scheme and the roles of

the various public and private stakeholders in its development should be assessed. The impact on existing legislation and the interaction with existing mechanisms guaranteeing privacy (such as the ones foreseen by Directive 95/46/EC and the existing national privacy seals) should be carefully assessed. **Total budget: 200K.**

## Participation in the Ethics Committee of EU-funded research projects

- 2016 – 2019: SELIS, Towards a Shared European Logistics Intelligent Information Space (<https://www.selisproject.eu>), H2020 Grant Agreement 690558.
- 2018 – 2021: CHARIOT, Cognitive Heterogeneous Architecture for Industrial IoT (<https://www.chariotproject.eu>), H2020 Grant Agreement 780075
- 2018 – 2021: TRACK & KNOW, Big Data for Mobility Tracking Knowledge Extraction in Urban Areas (<https://trackandknowproject.eu>), H2020 Grant Agreement 780754)
- 2018 – 2021: PROFILE, Innovative Data Analytics, Data Sources, and Architecture for European Customs Risk Management (<https://www.profile-project.eu>), H2020 Grant Agreement 786748.
- 2019 – 2022: SPIDER, A cyberSecurity Platform for virtualised 5G cybEr Range services (<https://spiderproject.eu>), H2020 Grant Agreement 833685

## Fellowships / Scholarships

- 1997-1998          Erasmus University Rotterdam (TMR – Training and Mobility of Researchers, European Commission)

## Publications

### I. Books – authored volumes

#### **(a) International publishers**

3. *Smart Grid Security*, Goel S/Hong Y/Papakonstantinou V/Kloza D, Springer, 2015
2. *Self-Regulation and the Protection of Privacy*, Nomos Verlagsgesellschaft, Baden-Baden, 2002
1. *The legal protection of software in a networked environment*, Esperia publications, London, 2001.

#### **(b) Greek publishers**

5. *Commentary on Trademarks law no.4072/2012*, Markopoulou D/Papakonstantinou V, Sakkoulas publications, Athens – Thessaloniki, 2016,
4. *Startups: A survival guide*, Papakonstantinou V/Markopoulou D, Stamoulis publications, Athens, 2015,
3. *Information Technology Law*, Papakonstantinou V, 2nd Edition, Sakkoulas publications, Athens – Thessaloniki, 2010
2. *Digital Greece*, Papakonstantinou V, Kleidarithmos publications, Athens, 2010,

1. *Information Technology Law*, Papakonstantinou V, Sakkoulas publications, Athens – Thessaloniki, 2006.

## II. Books – edited volumes

### **(a) International publishers**

- *Privacy and Data Protection Seals*, Rodrigues R/Papakonstantinou V, T.M.C. Asser Press, 2018

### **(b) Greek publishers**

- *Personal Data: National legislation, DPA Decisions, EU and International legislation, CJEU case law*, Markopoulou Dimitra / Tsoukala Vassiliki, editor: Vagelis Papakonstantinou, Sakkoulas publications, Athens – Thessaloniki, 2014.

## III. Chapters in collective works

### **(a) International publishers**

11. Vagelis Papakonstantinou, *Should we be afraid of Fake News?* in Disinformation and Digital Media as a Challenge for Democracy, Georgios Terzis, Dariusz Kloza, Elzbieta Kuzelewska, Daniel Trottier (eds.), Intersentia, 2020,
